

Call for Project Proposals

The NTRC invites interested persons to submit project ideas to be considered for funding under the USF.

Interested persons can access the application form by visiting this link <https://bit.ly/3MkKJbb>
Submission must be received by December 31, 2023.

What is USF?

Universal Service Fund was established to facilitate expansion of Telecom Infrastructure and Services to unserved & underserved, areas, institution serving the public needs, special interest groups, and maritime areas

How does the process work?

Projects approved for funding are implemented by Telecoms providers and managed by the applicant making the submission or institution agreed by the NTRC

Who can submit proposals?

Anyone can submit a project idea.

Priority areas

Expansion of broadband network with emphasis on the rural unserved and underserved communities

Promote affordable access to broadband internet service to individual with special needs, elderly, or low-income family

Promote access to telecommunications services within institutions serving the public needs (e.g. schools, hospitals)
